

Population change: issues and challenges

Wednesday 28 March 2018

St James the Less, London

Update your knowledge of contemporary population change with current case studies that link to the curriculum

- Develop up-to-date knowledge on migration in line with the new GCSE and A Level specifications
- Consider global, national and regional challenges of population change in talks from Oxfam, and the cultural, sociological and economic consequences
- Bring migratory flows to life with creative tasks to take back to the classroom
- Explore progression from KS3 to KS4 and 5

Sessions include:

Lectures:

from Michael Collyer, Professor of Geography and Director of Research and Knowledge, University of Sussex

Teacher-led workshops:

Heading to Europe – migration from Africa and the Middle East

Population change and me, in partnership with Oxfam

This day is for you if:

- You would like fresh ideas to engage students with the issues around migration
- You want to develop your knowledge of specific case studies
- You want to help students to evaluate issues created by global population change
- You want to gain resources and activities to use in class for this topic and beyond

Prices (subject to VAT at 20%):

£195 + VAT (Schools Programme members)

£295 + VAT (non-members)

£145 + VAT (further places from the same department)

Speakers

Putting you in touch with up-to-date subject knowledge

Michael Collyer is Professor of Geography and Director of Research and Knowledge Exchange in the School of Global Studies at the University of Sussex. His most recent book is the Migration volume in Routledge's Key Introductions to Geography series. He manages research projects, all to do with migration, including the Royal Geographical Society's Field Research Programme 'Migrants on the Margins'. He has worked for a variety of government departments and UN organisations.

Oxfam is a global charity that works to address the structural causes of poverty. Oxfam aims to help people directly when local capacity is insufficient, and to assist in the development of structures which directly benefit people facing the realities of poverty and injustice. Oxfam's interactive workshop will help attendees to gain an insight into the issues Oxfam works on and help teachers spark discussions in class.

Teacher Leader

All of our days are developed and led by practising teachers

Heidi Pocock studied Geography at the University of Cambridge and qualified as a teacher in 2009. She has taught at Chelmsford County High School for Girls ever since. Since her promotion to Subject Leader for Geography in 2012, Heidi has worked to embed opportunities for the development of critical thinking at all key stages, and has led the development of a variety of geographical debates.

"A really useful day. The teacher workshops after lectures gave me ideas to use my new knowledge."

- Zara Asghar, Challney High School for Boys | Geography CPD Day participant 2016

About The Prince's Teaching Institute

We know that for every student in every school, every teacher matters.

The PTI is a charity run by teachers, for teachers. We re-engage teachers with their specialist subjects, inspiring them to bring enthusiasm into class and raise the aspirations of their pupils.
